

Get back into the conversation with better hearing health

Take advantage of simple, painless hearing tests.

How to recognize the signs of hearing loss

The signs of hearing loss can be vague and develop slowly, or they can be obvious and begin suddenly. Ultimately, struggling to hear certain sounds or syllables is a telltale symptom of hearing loss.

If you recognize any of these signs in yourself or a loved one, it's important to seek help. Start by calling the designated number or checking the website to locate a Your Hearing Network provider in your area. Then, schedule your free hearing exam. Hearing tests are simple and pain free. As a participant in the Superior Vision by MetLife plan, you and your eligible family members can begin your hearing health journey.

The benefits are clear¹
